

# MEET VOX, VOICE & CHATBOT FOR CRM

## WHO IS VOX?

VOX is a conversational voice and chat AI assistant for CRMs. Integrated into Amazon Alexa, Apple Siri, Google Assistant and LiveChat, VOX allows your users and customers to interact with leading CRMs and popular Ecommerce platforms like Magento, Shopify and WooCommerce.

## WHY VOX?

- Integrated with popular voice assistants like Siri, Google Assistant, Alexa and chat tools like LiveChat
- Allow users to receive voice-powered daily briefings and analytics, create/update leads, opportunities, accounts, contacts, meetings, orders, cases, etc.
- Allow customers to place orders and request shipment status from leading CRMs or Ecommerce platform.
- Provide voice-assisted Knowledge Base/FAQ access to users and customers.

## USE CASES OF VOX

- Lead Management
- Customer Support
- Quote Generation
- Customer Engagement
- Customer Acquisition
- Employee FAQ
- Field User Support
- Voice Authentication

Alexa, what's my morning briefing?

Alexa, what are my opportunities closing this quarter?

Ok, Google, what's my team's pipeline this month?

Hey Siri, update my meeting with Peter to "held"

## MAKE YOUR CUSTOMERS AND USERS HAPPIER EVERY DAY

- Organize conversations with stories
- Tell the bot what to do in different situations
- Use previous conversations to improve your stories
- Go beyond. Text with buttons, images and cards
- Integrated with leading CRM and Ecommerce engines
- Reports to get insight into your bots' performance

VOX, create Lead - Acme Inc.

Update the quote iPhone XS - 50 units with 5% discount

Schedule a meeting tomorrow with Chris at 9am
